- · Small to large deployments.

Implementation:

· Fast to deploy and easy to learn.

Operation:

- 24/7 support worldwide.
- · New and improved features available regularly.

About GEWI

GEWI is the developer of the TIC product, a commercial off-the-shelf software (COTS) platform used for information services, as proven in many commercial and government projects operating worldwide. TIC is a cost-effective, robust, and scalable alternative compared to build-your-own systems. TIC was first introduced in 1997 and is now in its fourth generation. Founded in 1992, GEWI has become a global company with corporations in Europe, North America, and Asia.
