

Used worldwide:

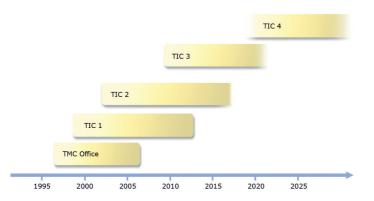

TIC is proven in over 125 projects worldwide.

Solutions:

- TIC for Traffic and Travel Information Services.
- TIC Real-Time Information for Navigation.
- TIC for RDS-TMC Navigation Tests.
- TIC for TPEG Navigation Tests.
- TIC for Traffic News Announcements.
- TIC for Traffic News Production.
- TIC for Radio Data.
- TIC for ITS Asset Management.
- TIC for Work Zones.
- TIC for Road Incident Management.
- TIC for Public Transport Events.

Used by:

- Police and radio stations.
- State road agencies and municipalities.
- Commercial service providers.
- Car and navigation manufacturers.
- Automobile clubs.
- Toll road operators.

History:

Since its introduction in 1997, TIC has continually evolved based on customer requests and market analysis.

Purchase:

- Flexible and scalable licensing and pricing.
- Annual and perpetual license options.
- Either from GEWI or authorized partners.

- Configurable platform for customized solutions.
- · Centralized or distributed.
- High availability with load balancing and failover.
- Complete hosted solution available.
- Small to large deployments.

Implementation:

· Quick deployment and easy to learn.

Operation:

- 24/7 support worldwide.
- New and improved features available regularly.

About GEWI

GEWI is the developer of the TIC product, a commercial off-the-shelf software (COTS) platform used for information services, as proven in many commercial and government projects operating worldwide. TIC is a cost-effective, robust, and scalable alternative compared to build-your-own systems. TIC was first introduced in 1997 and is now in its fourth generation. Founded in 1992, GEWI has become a global company with corporations in Europe, North America, and Asia.
