About GEWI

GEWI provides solutions to support the seamless and efficient transportation of people and goods. The solutions are based on GEWI's TIC product, a commercial off-the-shelf software (COTS) platform that is highly configurable and offers ease of deployment. Proven in many commercial and government projects worldwide, TIC was first introduced in 1997, and is now in its fourth generation. Founded in 1992, GEWI has become a global business with corporations in Europe, and North America.
